

# DELINQUENT

DELI

Kenya's first cryptocurrency

## **MICHAEL JOSEPH & TIMOTHY MUGO**

Both of Delinquent's founders have vast expertise and experience in the Tech sector. They are young visionaries who have a dream to change Africa starting with Kenya for the better through technology.

# **FOUNDERS**

# What is Delinquent bringing to the table?

- ANONYMOUS PAYMENTS
- LOW GAS FEES/TRANSACTION COSTS

# 100% DECENTRALIZED

Originally 51 million tokens were minted and 47 million are in circulation to the general public

# THE POINT

Delinquent is expected not to replace the current payment methods but to give a chance to the people to take control. The chance for people to make personal fortunes.

# Project Roadmap

## PLANNING:

Sell 51 million tokens for \$4 million

## VALUE

One token is currently valued at 10 kenya shillings

## ESTIMHATED TIMELINE

Two months after the launch of ICO

Delinquent runs on  
the solana  
protocol which  
gives it a robust  
projection range

Solana expects to  
raise up to \$4 million  
which is 450 million  
Kenyan shillings on  
its first ICO launch
